

10th Exposure Programme on Tribal Development Project conducted by NBSC

The 10th Exposure Programme on Tribal Development Project (TDP) was conducted by NBSC from 29th June to 01 July 2016 at BAIF, Lachhakadi campus in Navsari district of Gujarat. A total of 22 participants from 17 Regional Offices/Head Office of NABARD participated in the programme.

The sessions on TDP and CSR guidelines & collaboration with corporates were handled by Faculty members of NBSC. The other sessions on WADI project and Post-development interventions in the form of Producers Organisation were handled by Resource Persons from BAIF.

The highlights of the projects include development of wastelands for WADI (Orchards), preparation of mango grafts by tribals, inter-cropping with vegetables, empowerment of women, linkage with market, food processing for value addition, etc.. Thus, WADI model of NABARD proved to be a successful Model for food security and prevention of migration from the rural areas.

Shri R. C. Rath and V. K. Bist, DGMs/FMs were the Programme Directors.

A few photographs of the programme are enclosed below:

Mango tree in hill slopes under WADI

Interface with tribal farmer on WADI in his farm

Mango processing unit of the Producers organisation

Two-tier Mandava model of vegetables cultivation in WADI- Capsicum Annum (mirchi/chilly) on the soil and Coccinia Grandis (Kundru- a creeper plant) on the Mandava
