

## **NabScholar, e-learning platform: NBSC announces launch of 55<sup>th</sup> e-lesson**

Introduction of e-learning through the dedicated NabScholar e-learning portal was one of the innovative initiatives taken by NBSC in recent years in order to improve the training experience and make learning more interesting and effective. The portal is accessible through the NBSC website. These e-lessons are accessible to all officers for registration and undertaking assessment tests.

NBSC is pleased to inform that in a period of less than 2 years, it has launched a total of 55 e-lessons. These 55 e-lessons cover diverse topics such as agri-extension, crop production, long term refinance, warehouse receipts, RIDF, rural housing, climate change, supervision of banks, balance sheet analysis, HR, etc., pertaining to almost all the areas/departments of NABARD.

In order to keep pace with the latest developments in the work scenario and remain updated on the manifold activities and products that NABARD is adopting and fast pacing, on a continuous and regular basis, it is essential that all officers register for the e-lessons and complete the same.

For 2019-20, NBSC is working on up-scaling of e-lessons to more advanced courses and up-gradation of e-learning ecosystem part of a bigger plan for moving on to a blended form of learning through use of webinars, smart class-rooms, recorded sessions, use of mobile apps, e-nuggets, webcasts, remote classrooms, etc.

NBSC solicits feedback and suggestions on taking this movement forward.
